

Covid 19 Protocol for Team Members

Strategic Objective

In order to keep you updated on the most recent CDC guidelines regarding Covid-19, here are the procedures at Hillman Beer to keep you, your co-workers and our patrons safe.

Procedures

- 1) If you have any symptoms, please let your manager know. Remove yourself from work (or don't go in) and cover your shift immediately. If you have symptoms atypical of what you are used to (allergies, etc..) we recommend you get tested.
- 2) If YOU tested positive for COVID-19, regardless of vaccination status follow these guidelines:
 - a) **Stay home for 5 days and isolate yourself from others in your home.**
 - b) End isolation after 5 full days if you no longer have symptoms and if you have been fever free for 24 hours without fever reducing medicine.
 - c) Wear a mask until 10 days after your first symptom or positive test.
- 3) Please keep in mind that anyone who wants is welcomed to wear a mask even if they have not been exposed, tested positive or have symptoms.
